

EMVEE Centrifugal Jet Fan

Technical Specifications

Fan Type:	Centrifugal Jet Fan
Model:	EMVEE-CJF400
Air Flow:	Up to 10000 m³/h
Thrust:	Up to 60 N
Noise Level:	< 70 dB(A)
Motor Type:	External Rotor Motor
Material:	Powder Coated Steel
Control:	Two-Speed / VFD Compatible
Usage:	Underground Parking, Emergency Ventilation

Key Features

- High performance and airflow efficiency
- Rugged construction for industrial use
- Low maintenance and easy installation
- Custom configurations available
- Designed for maximum safety and airflow control
