

EMVEE Normal Tube Axial Fan

Technical Specifications

Fan Type:	Tube Axial
Model:	EMVEE-AXT400
Diameter:	400 mm
Air Flow:	Up to 7200 m ³ /h
Static Pressure:	Up to 200 Pa
Motor Type:	TEFC / B3 Foot Mounted
Motor Power:	0.75 kW - 5.5 kW
Voltage:	415V, 3 Phase, 50Hz
Blade Material:	Cast Aluminum / FRP
Mounting:	Duct Mounted / Flanged Ends
Usage:	Ventilation, Exhaust, Industrial Cooling

Key Features

- High performance and airflow efficiency
- Rugged construction for industrial use
- Low maintenance and easy installation
- Custom configurations available
- Designed for maximum safety and airflow control
